

# Enhancing environmental, health and safety (EHS) profiles.

A unique alternative to solvent-based promoters.

**3M™ VHB™ Tape**  
**Water-Based Promoter UV**

# Overcoming EHS challenges with innovative solutions

In today's manufacturing landscape, companies face significant challenges in enhancing their environmental, health and safety (EHS) profiles. Traditional solvent-based promoters often pose flammability risks and require special shipping and storage conditions, complicating logistics and increasing costs. Additionally, ensuring the quality and reliability of bonds across various substrates can be difficult, impacting product performance and durability. Manufacturers in industries such as automotive, construction and electronics need solutions that not only meet stringent EHS standards but also provide strong, reliable bonds without the associated risks and complexities of solvent-based products.

## Enhancing EHS profiles

3M™ VHB™ Tape Water-Based Promoter UV offers a sustainable solution by reducing the need for traditional solvent-based primers. It will likely help you meet sustainability goals and enhance your EHS profile.

## Non-flammable

The 3M™ VHB™ Tape Water-Based Promoter UV is non-flammable. This eliminates the need for special shipping or storage requirements, providing convenience and peace of mind.

## UV indicator

3M™ VHB™ Tape Water-Based Promoter UV features the inclusion of a UV indicator, making it visible under UV light. This allows for easy verification of promoter application, helping your ability to improve quality control.

## 70% water

By eliminating the need for traditional solvent-based primers, 3M™ VHB™ Tape Water-Based Promoter UV (with its formulation containing over 70% water) helps to support your commitment to sustainability. It boosts lower volatile organic compound content than 3M™ Primer 94 and 3M™ Adhesion Promoter 111.

## Benefits also include:

- ▶ Non-flammable construction with over 70% water content
- ▶ No need for special shipping or storage requirements
- ▶ Low in VOC through use of water as main solvent
- ▶ Contains a UV indicator to verify primer application
- ▶ Accelerates the bond-build rate of 3M™ VHB™ Tapes

## Strong bonds

This water-based adhesion promoter increases the adhesion of 3M™ VHB™ Tape, enabling secure bonds and helping to ensure long-lasting, reliable performance.

## Reliable bonding

3M™ VHB™ Tape Water-Based Promoter UV is beneficial to manufacturers in industries like automotive, construction and electronics, because it securely bonds a wide range of substrates:

- ▶ ABS
- ▶ PMMA
- ▶ Polycarbonate
- ▶ FRP
- ▶ PVC
- ▶ Metal
- ▶ Paint and more

# Trust 3M for science-based innovation.

Choose the 3M™ VHB™ Tape Water-Based Promoter UV with confidence knowing it was developed based on 3M science and backed by data. It's your go-to solution for the next generation of manufacturing.

## Ordering information

| Size   | Number     |
|--------|------------|
| 236 mL | 7100359742 |
| 946 mL | 7100359704 |
| 3.79 L | 7100359806 |

**3M**

**Product selection and use:** Many factors beyond 3M's control and uniquely within users' knowledge and control can affect the use and performance of a 3M product in a particular application. As a result, customer is solely responsible for evaluating the product and determining whether it is appropriate and suitable for customer's application, including conducting a workplace hazard assessment and reviewing all applicable regulations and standards (e.g., EU OHS legislation, Management of Health and Safety at Work Regulations 1999 etc.). Failure to properly evaluate, select, and use a 3M product and appropriate safety products, or to meet all applicable safety regulations, may result in injury, sickness, death, and/or harm to property.

**Warranty, limited remedy, and disclaimer:** Unless a different warranty is specifically stated on the applicable 3M product packaging or product literature (in which case such warranty governs), 3M warrants that each 3M product meets the applicable 3M product specification at the time 3M ships the product. 3M MAKES NO OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR ARISING OUT OF A COURSE OF DEALING, CUSTOM, OR USAGE OF TRADE. If a 3M product does not conform to this warranty, then the sole and exclusive remedy is, at 3M's option, replacement of the 3M product or refund of the purchase price.

**Limitation of liability:** Except for the limited remedy stated above, and except to the extent prohibited by law, 3M will not be liable for any loss or damage arising from or related to the 3M product, whether direct, indirect, special, incidental, or consequential (including, but not limited to, lost profits or business opportunity), regardless of the legal or equitable theory asserted, including, but not limited to, warranty, contract, negligence, or strict liability.

**Important note:** 3M industrial and occupational products are intended, labeled, and packaged for sale to trained industrial and occupational customers for workplace use. Unless specifically stated otherwise on the applicable product packaging or literature, these products are not intended, labeled, or packaged for sale to or use by consumers (e.g., for home, personal, primary or secondary school, recreational/sporting, or other uses not described in the applicable product packaging or literature), and must be selected and used in compliance with applicable health and safety regulations and standards (e.g., OSHA, ANSI, AS/NZ Standards), as well as all product literature, user instructions, warnings, and other limitations, and the user must take any action required under any recall, field action or other product use notice. Misuse of 3M industrial and occupational products may result in injury, sickness, death, or property damage. For help with product selection and use, consult your on-site safety professional, industrial hygienist, or other subject matter expert.
